Summary

Full-stack developer with hands-on experience building responsive and interactive web applications using React, JavaScript, and modern UI frameworks. Skilled in developing clean user interfaces, implementing dynamic features, and solving real-world problems through projects. Focused on writing efficient code and continuously improving through practical development.

Skills

- **Languages:** JavaScript, Python, Java, C++
- **Frontend:** React.js, HTML5, CSS3
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Tools & Platforms:** Git, GitHub, Vercel
- **Core Concepts:** Data Structures & Algorithms, OOP, REST APIs, Responsive Design

Experience

- **Full Stack Developer (Self Projects)** April 2026 – Present
Remote
 - Developed multiple web applications including an Internship Tracker and Amazon Clone.
 - Built dynamic user interfaces using React with efficient state management.
 - Implemented CRUD functionality to manage and update application data in real time.
 - Designed responsive UIs using Tailwind CSS and modern styling techniques.
 - Improved debugging and problem-solving skills through continuous development and optimization.

Projects

- **Internship Tracker | React, Tailwind CSS** April 2026
 - Developed an application to manage and track internship applications efficiently.
 - Implemented CRUD operations for adding, updating, and deleting application data.
 - Built reusable components and responsive UI using React and Tailwind CSS.
 - Used JavaScript for real-time updates without page reloads.
- **Amazon Clone | HTML, CSS** March 2026
 - Created a static e-commerce interface inspired by Amazon's UI.
 - Designed responsive layouts using Flexbox and Grid.
 - Structured clean HTML and styled components for better user experience.

Education

- **B.Tech in Computer Science** Expected 2028
Gandhi Engineering College, Bhubaneswar CGPA: 7.2/10
